

COLD HEADING

Fasteners
custom-made

www.bonioni.com

France • Poland

With more than 50 years of experience and technological know-how in **cold heading**, equipped with efficient machines, and a R&D department with multiple expertises, Bonioni is able to study and manufacture parts of high technical standard, perfectly adapted to the requirements and the constraints of its clients.

From the early phase of a project to the most advanced finishings, Bonioni assists each customer in the development of parts. Bonioni owns two production plants in France (Scionzier) and in Poland (Lublin), thus covering all the know-hows of **cold heading**, of producing parts from drawings and special fasteners.

Bonioni and its branch thus put their know-how at the service of activity sectors that need fasteners or special parts (automotive industry, railway industry, electrical and electromechanical engineering, construction and mining sector, toys, medical optics, cosmetics...)

Bonioni production in France Screws:

Ø 1 to 12mm, hardness classes 4.8 to 12.9 / Threads: ISO, SI, American and special threads / Machine screws / Self-tapping screws / Plastic screws / Screws with captive washers / Welding screws / Micro screws / all head shapes, slotted or recessed.

Special parts from drawing:

Max Ø 30mm - max length 125mm

Material:
